

## CIAO Intelligent Shopper Assistant (ISA)

Redefining Retail: AI-Driven Anti-Fraud, Peak Performance, and Innovative Self-Service Solutions. Designed for the Modern Retailer.

In an era where retail efficiency meets technological brilliance, CIAO emerges as the zenith of the Intelligent Shopper Assistant. Seamlessly merging a vivid 5.0 in. display with groundbreaking WiFi-6 connectivity, it redefines the in-store browsing experience. Powered by a robust Qualcomm processor, paired with a vast storage, CIAO promises lightning-fast data interactions. But it's not just about performance; its precision scanning and AI-driven fraud detection ensure every product interaction is accurate and trustworthy. With resilience from Gorilla Glass and extended battery life, it's crafted for continuous retail challenges. Also, the seamless synergy with "CIAO AI Connect" Smart Holders and future compatibility with universal retailer software amplifies its adaptability. Introducing CIAO – envisioning the of retail, today.

### MEFERI

MEFERI's CIAO Connect, the Intelligent Shopper Assistant: Revolutionizing Retail Shopper Journey with AI-Powered Security. Refer to CIAO Mobile Shopper Solution for more information:

[www.meferi.com/solutions/ciao](http://www.meferi.com/solutions/ciao)

### MEFERI's Charging Wall

Our Charging Wall can host as many devices as you need. CIAO Mobile Shoppers are always powered up and ready to assist your customers. CIAO charging cradles are available with 3-slot for new store openings and easy replacement of existing cradles.

### MEFERI's Retail Ecosystem

From AI Cameras to Cloud Software, every component in MEFERI's ecosystem Works In Harmony, offering an unmatched, Data-Driven Retail Solution.

## FEATURES AND BENEFITS

### Empowering Retail with CIAO's Superlative Performance

Experience unparalleled speed with CIAO's Qualcomm QCM4490 processor, elevating mobile computing to unprecedented heights. This super premium component ensures instant data processing, rendering shopping expeditions delightful and memorable. Paired with a massive 6GB LPDDR4 RAM and 128GB UFS storage, it confidently supports any retail store's data needs, guaranteeing a fluid, efficient, and industry-leading shopping experience.

### Elevating Retail Interactions with CIAO's Premium Display

Experience CIAO's 5.0 in. IPS, 720 x 1280 display. Protected by Corning Gorilla Glass III, it ensures resilience and scratch resistance. Luxibright technology delivers vivid colors, optimal viewing angles, and energy efficiency, even in sunlight. The touch panel is responsive in wet conditions or with gloves, enhancing in-store browsing and purchases.

### Effortless Integration with CIAO: Maximizing Existing Infrastructure

CIAO offers a seamless transition with durable ElectroQuick Couplers. These contacts endure frequent cleanings and are fully compatible with existing Charging Walls and Cradles, saving on costly replacements. Optimize current infrastructure and reduce deployment expenses with CIAO's intelligent solution.

### Precision Scanning: Superior Barcode Recognition

CIAO's advanced scanning with Honeywell HS 7, Zebra SE4710, and PRZM optics guarantees instant, flawless scans for 1D/2D barcodes. Its proximity sensor auto-activates within 30 cm, streamlining the shopping adventures.

### Enhance Brand Presence: Personalize CIAO to Reflect Your Identity

With CIAO, aesthetics meets functionality. Customize CIAO to match your store's brand with a variety of color choices for the handle and scanning button. This allows CIAO to seamlessly integrate into your retail environment, enhancing your brand's presence and enriching the shopping experience. CIAO isn't just a device; it's a statement piece that reflects your brand's identity and commitment to excellence.

### Versatile RFID Integration: Enhanced Security & Possibilities

Unlock CIAO's built-in RFID tag potential. It safeguards against theft with alarms and visual alerts, aids in swift device retrieval, and integrates with other RFID systems, enhancing store security and data collection. It's not just device protection; it's about optimizing operations, ensuring safety, and enhancing the retail experience. CIAO's RFID flexibility allows retailers to harness its power in many ways.

### AI FRAUD DETECTION SOLUTION FOR RETAIL Advanced Fraud Detection: AI-Powered Security & Assurance. Precision in Every Scan

CIAO's AI-enabled solution offers next-gen shopping assurance: CIAO AI Connect: AI Camera covers the entire trolley, inspecting every product placed or removed against CIAO scan data for accuracy. Dynamic Visual Recognition: AI algorithms cross-verify scanned items, ensuring correct products in the cart and identifying discrepancies. Intelligent Alerts: Immediate notifications for mismatches or potential fraud, assisting customers and halting transactions if needed. Seamless Self-check-out (SCO) Support: Integrates with Self Check-out systems, enhancing the shopping experience.

⑤ YES –in CIAO Charging Cradle. Convenient replacement, does not require sending the device to the service.

⑥ YES –in CIAO AI Connect. Convenient replacement, does not require sending the device to the service.

⑦ A two-in-one solution: 1. The lid latches do not need screws, it can be removed quickly. 2. Screw holes for additional protection.

⑧ Remote connection, diagnostics, OTA firmware update, application downloads /update, security policies, etc. (Cloud /Local Server)

⑨ Change ElectroQuick Couplers in one click in CIAO, CIAO AI Connect and CIAO Charging Cradle.

## KEEPING ERROR/FRAUD UNDER CONTROL

### THE POWER OF AI

CIAO Mobile Shopper Assistant (ISA) device communicates with CIAO AI Connect (Smart Holder), integrated with AI Camera that covers the entire trolley volume. It works diligently to match items placed in or removed from the trolley with the CIAO Intelligent Shopper Assistant (ISA) scan events, offering an extra layer of support to shopper to avoid mistakes and an extra layer of **Security In Retail Operations** and ensuring a stressless shopping environment. **Transaction Blocking or Initiating a Security Check** at checkout. Additionally, this solution can also support SCO checkout by anticipating and informing SCO supervisor/security team.

### Enhancing Transaction Integrity with Intelligent Notifications

CIAO Intelligent Shopper Assistant (ISA) combined with CIAO AI Connect (Smart Holder) employs notification systems that **Automatically Detect** and report any errors or **Potential Fraud**. When an item is missed in the scanning process, a prompt message alerts the customer to scan the missing product or remove it from the trolley to avoid **Transaction Blocking or Initiating a Security Check** at the checkout. Alternatively, the system can be silent and store security team informed.

## CIAO Contactless Payment Function Feature

Unlock the power of contactless payment directly on the CIAO Intelligent Shopper Assistant. Process bank card transactions and enhance customer engagement with an integrated loyalty program, all hosted within the CIAO device. The NFC module is placed closer to the device screen, so for payment, it is necessary to bring the plastic card to the device screen, which makes the payment process even more convenient since it is not necessary to remove CIAO from CIAO AI Connect.

**Note: Payment functionality set to debut in 2024.**

### POS Independent Functionality:

CIAO devices function as stand-alone POS terminals, eliminating the need for additional hardware. This integration simplifies the setup and reduces equipment costs, making it an economical solution for retailers.

### Secured Payment Processing:

Ensure fast and secure transactions with the built-in security features of Tap on Mobile. Ideal for self-checkout scenarios, this feature streamlines the payment process, enhancing both staff and customer experiences by reducing transaction times and increasing safety.

### Comprehensive Payment Support:

CIAO ISAs accept a wide array of payment methods, including NFC-based mobile payments and contactless credit cards. This flexibility allows customers to pay how they want, enhancing convenience and improving the overall transaction experience.

### Adaptable and Scalable:

Seamlessly integrate with existing Electronic Cash Registers (ECR) apps and scale to accommodate different retail sizes and needs. Whether you're outfitting a grocery store or a large department store, the system adjusts to meet your specific operational demands.

### Operational Excellence:

Enhance the efficiency of your checkout processes, increase transaction accuracy, and improve the overall shopping experience. By optimizing these key areas, retailers can achieve higher customer satisfaction and foster loyalty.

### Real-Time Analytics and Insights:

Gain immediate insights with CIAO devices featuring Tap on Mobile. Access key sales and customer data on-the-fly, enabling quick and effective decision making that enhances both customer service and store efficiency.

## MEFERI Software Suite

MeOmniSoft

OmniSoftware Suite — A comprehensive set of industry-specific utilities and applications, designed to unlock maximum productivity and efficiency on all MEFERI devices. Customizable, scalable, powerful.

MeOmniApps

OmniIndustry Suite — Unleashing the power of industry-specific mobile apps, revolutionizing operations across sectors. Experience the transformative and customizable OmniIndustry Suite, of tailored applications for various industries, designed to streamline your operations.

Shadowwalk

EMM Shadowwalk by MEFERI — your trusted solution for corporate mobile device management and enterprise mobility. Combining Mobile Device Management (MDM) and Enterprise Mobility Management (EMM), Shadowwalk offers advanced remote control, streamlined administration, enhanced diagnostics, and comprehensive data security. Tailored for businesses seeking centralized, efficient, and secure mobility management. Perfect for large enterprises demanding scalability and compliance.
